2. Speciality Button

- A screenshot of an iOS application interface. At the top, the status bar shows the time as 1:50 and the signal strength. Below the status bar, there is a dark gray header area with the text 'iOS: Fixed' in white. The main content area is white and contains a text input field with the placeholder text '테스트를 입력해주세요.' in gray. Below the input field, there is a red rectangular button with the text 'Label' in white. The bottom of the screen shows the white home indicator bar.

Size

The diagram illustrates the 'Trailing_en Type' with six sizes: Xlarge, Large, Medium, Small, Xsmall, and Xxsmall. Each size is represented by a teal rounded rectangle containing the text 'Text'. The dimensions are indicated by purple brackets and labels:

- Xlarge:** Dimensions 8x16 (width x height) and 52 (height). A label 'flexible-width' is shown below the box.
- Large:** Dimensions 8x16 (width x height) and 44 (height).
- Medium:** Dimensions 8x12 (width x height) and 40 (height).
- Small:** Dimensions 6x12 (width x height) and 36 (height).
- Xsmall:** Dimensions 6x12 (width x height) and 32 (height).
- Xxsmall:** Dimensions 5x10 (width x height) and 24 (height).

White

`black, opacity: 0.4`

Text

The diagram illustrates two different text input validation approaches:

- 기본 글자수 (Basic Character Count):** This method uses a text input with a minimum length constraint of 320 characters. The input field is shown with the text "www" and a red line indicating the minimum length requirement. The label "최소 320" (Minimum 320) is displayed below the input field.
- 글자수 초과 (Character Count Exceeded):** This method uses a text input with a maximum length constraint of 320 characters. The input field is shown with the text "www" and a red line indicating the maximum length requirement. The label "Default 393" is displayed below the input field.

- ## 1. Guide

The diagram illustrates the mapping of CSS classes to colors. It shows two boxes: a teal box labeled 'Text' and a blue box labeled 'Text'. The teal box is linked to 'system/color/button/...' and 'system/color/text/default'. The blue box is linked to 'system/color/text/default' and 'Community/blue/2'.
